

The 'INTERNATIONAL SOCIETY OF QUANTUM BIOPHYSICAL SEMEIOTICS' – SISBQ - organizes:

**The 2nd International Conference on Quantum Biophysical Semeiotics and the New Renaissance in Medicine**

Venue: Chiusi (SI) - Italy – May 28th-29th, 2011

**May 28th , 2011**

**h 9:00 – Opening of the Conference (introduction to the meeting, aims, goals, presentation of participants and speakers, meeting program)**

Simone Caramel – President of SISBQ

**h 9:10 – From 'I Ching' to Quantum Biophysical Semeiotics**

Dr. Massimo Rinaldi – Oncologist & Acupuncturist

**h 10:00 – Rinaldi's Sign in bedside Diagnosis of Di Bella's Oncological Terrain and overt Cancer, both solid and liquid**

Dr. Sergio Stagnaro – Founder of Quantum Biophysical Semeiotics

**h 11:00 – Coffee break**

**h 11:15 – 12:15** – Questions, interventions by other participants, introduction to afternoon session (first QBS training course – first part)

**h 12:30 – Lunch**

**h 15:00 – 18.30 - First QBS training course – for doctors – first session**

- Auscultatory percussion of the stomach: the demarcation of the greater gastric curvature
- Seeking and evaluation of gastric aspecific reflex: its diagnostic importance
- Detection and stimulation of trigger points of different biological systems
- Stimulation of epiphysis through slight, mean or intense digital-pressure: sense and meaning

- The aspecific gastric reflex and the gastroesophageal tonic reflex
- The latency, duration and intensity of aspecific gastric reflex
- The pre-conditioning
- Rinaldi's Sign in bedside diagnosis of 'Di Bella' Oncological Terrain

**h 19:30 – Dinner**

**h 21:30 – Constituent Assembly of International Society of Quantum Biophysical Semeiotics – SISBQ – <http://www.sisbq.org>**

**May 29th, 2011**

**h 9:00 – The quantum aspect of QBS**

Simone Caramel

**h 10:00 – Cardiac applications of quantum biophysical semeiotics**

Dr. Mario Siniscalchi – Cardiologist

**h 11:00 – Coffee break**

**h 11:15 – 12:15** – Questions, interventions by other participants, introduction to afternoon session (first QBS training course – second part)

**h 12:30 – Lunch**

**h 15:00 – 18.30 - First QBS training course – for doctors – second session**

- Anatomy of the human body: the delimitation of the heart, spleen, kidneys, liver, aorta, pancreas
- Detection and stimulation of trigger points of different parenchyma
- Auscultatory percussion of the stomach: the heart aspecific gastric
- Stimulation of precordium through slight, mean or intense digital-pressure: sense and meaning

- Auscultation of the stomach
- Evoke/auscultation of heart aspecific gastric reflex
- Caotino's Sign in bedside clinical diagnosis of inherited real risk of CAD
- Siniscalchi's Sign in bedside clinical diagnosis of diabetics constitution and its inherited real risk

**h 19:30 – Dinner**

**Ore 21:30 – Board meeting of SISBQ**
